

Dyfana Playwright - Setup & Run Guide

Project: Dyfana E2E Booking Tests | Repository: github.com/anamsaeedtechnation-ai/Dyfana-Playwright

Environments

Staging (Default)

URL: <https://dev.dyfana.com>

Command: `npx playwright test`

Live / Production

URL: <https://www.dyfana.com>

Command: `$env:TEST_ENV="live"; npx playwright test`

Step 1 Install Node.js

Download and install Node.js from: <https://nodejs.org> (LTS version recommended)

Verify installation:

```
node -v
npm -v
```

Step 2 Clone the Repository

```
git clone https://github.com/anamsaeedtechnation-ai/Dyfana-Playwright.git
cd Dyfana-Playwright
```

Step 3 Install Dependencies

```
npm install
```

Step 4 Install Playwright Browsers

```
npx playwright install
```

This downloads Chromium, Firefox, and WebKit browsers needed to run tests.

Step 5 Run Tests

Run on Staging (default):

```
npx playwright test
```

Run on Live / Production:

```
# PowerShell (VS Code terminal)
$env:TEST_ENV="live"; npx playwright test

# CMD / Git Bash
set TEST_ENV=live && npx playwright test
```

Run a specific test:

```
npx playwright test --grep "Umrah booking"
npx playwright test --grep "Custom Umrah booking"
```

Run a specific test on Live:

```
$env:TEST_ENV="live"; npx playwright test --grep "Hotel booking"
```

Run with browser visible (headed mode):

```
npx playwright test --headed
```

Run with Playwright UI:

```
npx playwright test --ui
```

View test report after run:

```
npx playwright show-report
```

Step 6 Pull Latest Code from GitHub

```
git pull origin master
```

All Commands - Quick Reference

Action	Command
Install dependencies	<code>npm install</code>
Install Playwright browsers	<code>npx playwright install</code>
Run all tests (Staging)	<code>npx playwright test</code>
Run all tests (Live)	<code>\$env:TEST_ENV="live"; npx playwright test</code>
Run specific test	<code>npx playwright test --grep "test name"</code>
Run specific test (Live)	<code>\$env:TEST_ENV="live"; npx playwright test --grep "test name"</code>
Run with browser visible	<code>npx playwright test --headed</code>
Open Playwright UI	<code>npx playwright test --ui</code>
View HTML report	<code>npx playwright show-report</code>
Pull latest code	<code>git pull origin master</code>
Check git status	<code>git status</code>
View git log	<code>git log --oneline</code>

All Tests (8 Total)

#	Test Name	Run Command
1	Umrah booking	<code>npx playwright test --grep "Umrah booking"</code>
2	Transport booking	<code>npx playwright test --grep "Transport booking"</code>
3	Guide booking	<code>npx playwright test --grep "Guide booking"</code>
4	Explore Saudi booking	<code>npx playwright test --grep "Explore Saudi"</code>
5	Hotel booking	<code>npx playwright test --grep "Hotel booking"</code>
6	Offers booking	<code>npx playwright test --grep "Offers booking"</code>
7	Custom Umrah booking	<code>npx playwright test --grep "Custom Umrah"</code>
8	Umrah Badal booking	<code>npx playwright test --grep "Umrah Badal"</code>
